

## Tax Day 2020: "B" Plastic Free

Today's Plastic Free July challenge is to **think critically about the businesses you support!** If you are passionate about reducing plastic waste, share ideas for plastic reduction with your favorite local businesses, and choose to spend your hard-earned dollars at companies that consider their environmental impact.

**Certified B Corporations** "are legally required to consider the impact of their decisions on their workers, customers, suppliers, community, and the environment." They balance consumer demand with environmental impact, workers' rights and charitable giving. Look for the "B" stamp on your products to support these businesses.
