

Take Care Tuesday: 'Think Like It's 1620' Remote Cleanup

Help us clean the beaches of Cape Cod this Friday! Clean at your convenience, and sign up for your beach at the link below!

Last week, we highlighted Take Care Cape Cod's "Think Like It's 1620" Campaign, which leads us to our final Take Care Tuesday!

The Pilgrims infamously landed on Cape Cod four hundred years ago and found a wild, pristine environment, free from plastic. This Friday, July 31st, the Center for Coastal Studies joins Take Care's campaign for a Cape-wide remote beach cleanup in an attempt to restore that beauty! Find a beach or natural place near you to clean up for at least 16 minutes and 20 seconds. We are asking that you sign up for your beach ahead of time to allow for social distancing.
