

## Silverware Sunday

This Sunday's Plastic Free July Challenge is to **go plastic-cutlery-free!** Bring your own silverware to avoid the need for single-use plastic silverware with your take-out.

If carrying around metal silverware is too heavy, consider investing in a bamboo cutlery set. This \$12 set sold by Unpacked Living, a Massachusetts-based company selling low-waste products, primarily from local New England small businesses. <https://www.unpackedliving.com/products/eco-friendly-bamboo-cutlery-set>
