

Take Care Tuesday

Have you ever heard of [Take Care Cape Cod](#)? It is a campaign lead by [CARE for the Cape and Islands](#), an organization dedicated to keeping the natural places you love on Cape Cod safe and healthy. Using whimsical graphic designs with catchy phrases, **Take Care Cape Cod engages us to think about what happens to our litter**, from dog-doo bags to take-out containers.

The Center for Coastal Studies partners with CARE on many plastic reduction and education initiatives, so every Tuesday this month, we will be highlighting campaigns led by Take Care Cape Cod to reduce and properly dispose of waste on the Cape. Visit their website for more information at <https://www.takecarecapecod.org/>
